

## 2<sup>nd</sup> TPM in Thessaloniki

On April 8, 2022, the 2<sup>nd</sup> meeting of the project took place in Thessaloniki, Greece. The Aristotle University of Thessaloniki, the host organization, welcomed the consortium and planned a fruitful day for all of us.

We started our day with a visit of the historic center of the city of Thessaloniki, and later we visited the facilities of the university where the meeting took place, which proved to be very useful for everyone.

We discussed the next steps of the project, finalized the work done in the first 12 months, and we designed the main sectors of the CV Generator. At the same time, we discussed and resolved any problems that had arisen in the previous months. We seek to build a useful tool for young people who are taking their first steps in the job market and want to create their own personal branding.

We especially thank AUTH for the warm hospitality and look forward to the next meeting
